

**MILWAUKEE FIRE
COST \$800,000**

Cream City Swept By A Destructive Blaze.

**FINE BUILDINGS AND STOCKS
ARE LAID WASTE.**

Started in the Furniture Store of A. F. Tanner & Company on Grand Avenue and Swept Down that Busy Thoroughfare—Bad Blaze at Chicago—Other Fires.

Milwaukee, March 27.—Milwaukee had a million dollar fire last night.

It swept down lower Grand avenue, where the heart of the wholesale and retail commerce throbs, and caused a loss of from \$800,000 to \$1,000,000. The blaze started a few minutes before midnight, in the furniture store of A. F. Tanner & Company, 317 to 327 Grand avenue. It was discovered by dozens of pedestrians on the avenue and several alarms were rung in at about the same time. Before the engines arrived the entire building, 100x120 feet, was in flames, and before the firemen had a stream on the building the walls began to fall. The fire spread quickly to the building occupied by Landauer & Co. at Fourth and Grand avenue. In ten minutes this building was burned to the ground and the fire sweeping across Fourth street enveloped the Y. M. C. A. building and the Foster building. Jumping across Grand avenue the fire consumed a half block of three-story brick buildings and again crossing Fourth street enveloped the Public Library building, the Fourth street corner of which is occupied by Benedict & Co., clothiers.

There never was a fire in this city which destroyed so much property in so short a time. It is remarkable that there was no loss of life, although there were many narrow escapes. The most remarkable escape was at Grand avenue and Fourth street. At 12:45 two streams were playing on the building, the cupola of which was burning directly over the heads of the firemen. Suddenly it toppled and fell. The men saw it coming and stuck to their posts while death seemed imminent. They never wavered, although the crowd a half a block back shouted for them to run. They heeded not, and fortunately the immense copper cupola struck the top of one of the engines and fell to one side without injuring any of the men.

There were several other narrow escapes of firemen from the falling walls. The upper stories of the row of three-story buildings, No. 318 to 330 Grand avenue, were occupied as residences, and they were crowded with roomers. The fire came so quickly the people in these rooms had to run for their lives in their night clothes. In the confusion families were separated and little children were torn from their parents.

The confusion extended to the Davidson hotel, which backed up on the fire. The fire came up so quickly that for a few minutes the people in the hotel thought it was the rear of the hotel. A general alarm was sounded and the guests ran for their lives, many of them dragging their trunks and little belongings after them. The same condition of affairs existed in the Schlitz hotel and Lomborg's European hotel, half a block away.

In the tenement houses for blocks on all sides of the fire the people moved their goods and chattels to places of absolute safety.

The fire after spreading well to the westward began eating its way to the east. The clothing store of Barling & Wawbold took fire and it was a total loss in a few minutes. Over the eastern end of this building facing on Third street is the annex of the etalon shroud cmfwpv vbkgj vbkgjxx Davidson hotel, and at 1:30 o'clock the fire had reached into this building. In the number, No. 318 Grand avenue, there were a number of women. Some of these were panic stricken when the fire swept across the avenue and stood on a landing on the side of the building, wildly gesticulating and unable to move or do anything to help themselves. Police Lieutenant Toward and some officers went to their assistance, but before the officers could reach them two jumped from the second story. Both struck on a pole in the alleyway and both were injured, but how badly or who they were could not be learned, as they were carried off by sympathizers in the crowd. The loss will be fully \$1,450,000. Insurance men say at least 80 per cent of the loss is covered by insurance.

MANY LIVES IN PERIL.

Bell Clothing Store at Chicago in Flames and Employees Cut Off.

Chicago, March 27.—A great fire broke out yesterday in the four story building at the northwest corner of Quincy and State streets, occupied by the Bell Clothing company. Hundreds of clerks and visitors were in the building at the time. The flames spread with almost incredible swiftness, cutting off access by the staircases to those in the topmost two stories. The firemen ran up ladders to the front and side windows and took off fourteen men and women who were in the windows screaming for help or hanging from the ledges, preparing to risk destruction by a fall to the ground rather than face the fury of the flames. The flames ran with such rapidity that in less than five minutes the whole building was a mass of fire and the surrounding property was in serious danger. At 2:45 a "4-11" alarm was sent out from the central fire office and special calls followed.

Several persons are known to have been seriously injured. The Bell building is a complete wreck and the stock a total loss. The loss on build-

ing will be \$50,000 and the loss on stock is estimated at \$200,000.

Fourteen persons were seriously injured, but none fatally. The loss will be between \$150,000 and \$200,000, well covered by insurance.

INCENDIARIES BURN THE PLACE.

Robinson & Co.'s Stock Establishment at Decatur, Ind., Destroyed.

Decatur, Ind., March 27.—The large stock barn, cattle and hog sheds, and granaries on the farm of Robinson & Co., were destroyed by fire last night with 4,000 bushels of corn, 1,000 bushels of wheat, 150 head of hogs, ten tons of hay, straw and farming implements. The buildings occupied over three acres of ground and were consumed. Henry Blumhe, superintendent of the farm, was almost fatally burned while attempting to release the cattle. The fire was of an incendiary origin and was the third attempt to burn the buildings in the last year. The loss is \$40,000 with small insurance.

Burglars Cause a Fire.

Richmond, Maine, March 27.—Burglars in an attempt to rob the postoffice here early yesterday morning set off an explosion which started a fire that resulted in the destruction of six stores, including the Western Union telegraph office and the postoffice. The burglars secured \$650 in stamps and \$200 in cash.

THE DEBS CASE IN COURT.

Attorney General Olney Defends the Government's Action at Chicago.

Washington, March 27.—The hearing on the application of Eugene W. Debs and others for a writ of habeas corpus for their release from imprisonment was resumed promptly on the opening of the Supreme court of the United States yesterday. Attorney General Olney said the single question before the Supreme court was whether the court below had jurisdiction of the case made by the original bill, and proceeded to show, that as he viewed the matter, that it had. He passed immediately to the consideration of the strike as a violation of interstate commerce relations. Intercourse and transportation between the states and all instrumentalities of either are admittedly parts of interstate commerce. Having power to control it congress has not permitted the power to lie dormant, but has freely and decisively exercised it. He then enumerated several of the federal laws bearing on the questions of interstate traffic, including those applying to the carrying of live stock and those requiring the use of certain kinds of brakes, etc. He continued: "By the act the principles in accordance with which interstate transportation shall be conducted are laid down and defined, their violation is inhibited under severe penalties, and to crown the whole, all the interstate commerce railroads of the country are practically put in charge of a commission which is to see to it that their duties as interstate carriers, as prescribed by congress, are faithfully discharged."

"Finally, recognizing the existence of an evil of greater magnitude, congress, by an act of Oct. 1, 1888, made provision for the creation of boards of arbitration to settle controversies between railroad companies and their employees when such controversies are having the effect of hindering and interrupting interstate commerce."

The attorney general admitted that it was the duty of the state authorities to deal with certain phases of the offenses committed, and said: "If they had done so promptly and vigorously the interruption of interstate railroad transportation might possibly have ceased, but instead of their doing this they allowed day after day to pass marked either by total inactivity or by effort so ill-directed and inadequate as to aggravate all the evils of the situation. Hence it became necessary for the government for the suppression of the fense of individuals, but in obedience to its obligations to protect interstate commerce, and because it is the duty of every government to exercise its functions whenever occasion requires."

Mr. Olney passed on to the consideration of the means at the command of the government to step in, not only in de-strike, the principal of which was the courts, which must be depended upon so far as practicable to deal with it. Mr. Darrow opened by saying that he agreed with Mr. Olney that the case was one of vast importance to countless millions of working people. He replied with some warmth to Mr. Olney's criticism of the failure of the state courts to take proper cognizance of the acts of violence accompanying the strike, declaring that the state had ever been anxious to preserve peace and was capable of doing so. If the contrary had been true the United States troops could be called in; but there was no excuse under the law for appealing to the Federal courts. Mr. Darrow contended that the inter-state commerce act was not applicable, as that law was enacted for the purpose of dealing with and restricting the operations of the railway corporations. He took up the anti-trust law and proceeded to show that from his standpoint it was not applicable to the railway union, but was directed at abuses by monopolies. Mr. Darrow concluded with a personal appeal in behalf of his clients. He contended that their acts were not criminal. He could say on behalf of his clients that, although they might have been misguided and unwise, they had acted from the highest and purest motives. Mr. Darrow's argument was the last in the case and when he had finished the court proceeded with other business on its call. Its decision probably will be rendered before adjournment in May.

The Montana Swindle.

Butte, Mont., March 27.—At the trial of H. L. Haupt in the United States court yesterday the government introduced additional operations of the extensive swindling operation of the Mountain Mining Loan and Investment company. It was shown that the company's capital stock of \$12,000,000 was not worth over a few hundred dollars at the most. Since the mails have been closed against the concern its business is carried on through the express offices, and its receipts are said to have been heavy.

Barrios' Delay Ties Up All Plans.

Washington, March 27.—Nicaragua's president and congress will not have Great Britain's demand for indemnification for the expulsion of Hatch and other Englishmen laid before them until some time next month on account of the breaking of a steamer's propeller, which will delay Gen. Barrios, who was conveying Great Britain's answer. It is quite likely that another month will elapse before any action can possibly be taken by Nicaragua concerning England's demands.

**AUBURN, ILL., BANK
ROBBED OF \$1,000**

BURGLARS DID FINE WORK THIS MORNING.

After Securing Their Plunder They Make Their Escape Without Leaving a Clue—Bank at Mount Morris Also Broken Into—But Very Little Cash Was Secured.

Auburn, Ill., March 27.—The Auburn State Bank was robbed of \$1,000 by burglars early this morning. They left no clue behind.

Mount Morris, Ill., March 27.—The bank of Mount Morris at 1:30 o'clock yesterday morning was robbed. The job was the work of experts. Entrance was gained to the building by exploding powder in the keyhole of the back door. The robbers then drilled a half-inch hole through the vault door and broke the cross-bar and lock. After getting into the vault, they drilled into the steel safe and exploded dynamite. The steel chest inside the safe, in which was between \$7,000 and \$10,000, was not opened by the explosion, and in fact has not yet been opened. But Major Charles Newcomer, president of the bank, says he is positive the money in the chest is all safe. The robbers secured \$150 in silver, which was in a different department of the safe. The damage to the vault and safe will be \$1,500. The robbers stole a team and spring wagon and escaped. The report of the explosions was heard by several citizens, but the wind was blowing a gale and they paid no attention to the noise.

To Prove Schwabacher Insane.

Peoria, Ill., March 27.—Yesterday morning a jury was secured to try Julius Schwabacher, son of a wealthy distiller, on a charge of burglary. Some months ago Schwabacher was detected robbing the residence of Mrs. Frankie Bell, who was out of the city. He was arrested, and immediately on securing his release his father sent him to a private asylum for the insane, where he has since spent the greater portion of his time. The testimony of a number of witnesses was heard, and at 6 o'clock the state rested, having established the crime. The defense will place a number of witnesses on the stand to prove the defendant was not in his right mind at the time the crime was committed.

To Put "Treason" in Text Books.

Indianapolis, Ind., March 27.—At the state encampment of the G. A. R., which opened yesterday at Muncie, the first step will be taken to change the complexion of every school history in the land. The scheme has been in sub-rosa existence in Indianapolis for six months, three veterans from each post having been selected to perfect the plan. William H. Lester is chairman of the committee. The intention, he says, is to insert the words "treason" and "rebellion" in histories, and to word them so as to deal with the defunct confederacy without gloves. The resolutions, after being acted on at Muncie, will go to the national G. A. R.

Illicit Still in Minneapolis.

Minneapolis, Minn., March 27.—A. Outlet, a Frenchman, was arrested yesterday by the United States revenue authorities charged with the manufacture of liquor without a license. When found he was in his cottage and the crude distilling apparatus with which he had been operating was all found concealed in the house. The lead worm was found in the bed, where his wife was feigning sickness.

CANADA IN A TUMULT.

Separate School Agitation Upsets Dominion Cabinet.

Ottawa, Ont., March 28.—The troubles are thickening about the government of Sir Mackenzie Bowell. The Hon. J. C. Patterson, minister of militia and defense resigned yesterday, and was succeeded by the Hon. A. B. Dickey. The latter's portfolio goes to the Hon. Dr. Montague, who was sworn in as secretary of state by Earl Aberdeen. The cabinet disruption is due to differences on the government's policy of ordering the province of Manitoba to re-establish Roman Catholic Separate schools. More significant still of the crisis in cabinet affairs is the report that Sir Charles Herbert Tupper, minister of justice, has also sent in his resignation. Sir Charles is in accord with the government's policy on the school question, but he favored a direct appeal to the people on it at a general election. The French Canadian members fought for a session of parliament.

Muruga Sends in His Resignation.

Madrid, March 27.—The Spanish minister to the United States, Senor Muruga, cabled his resignation to the Spanish government immediately on the formation of the new cabinet. **VON BUELBERNBERG
MADE PRESIDENT**

HE WAS CHOSEN BY THE REICHSTAG TODAY.

Hohenlohe Visits Bismarck and Is Greeted With Great Pomp—The Session to Close Before Easter—Bismarck Meets the Emperor—A Bimetallic Row Is On.

Berlin, March 27.—The Reichstag this morning elected Baron Von Buelbernberg president. Prince Hohenlohe visited Bismarck today and was received with great pomp.

London, March 27.—The correspondent of the Daily News at Berlin telegraphs that he believes it to be almost certain that the government will seize the first pretext to dissolve the reichstag before Easter.

A dispatch to the Standard says that at the lunch at Friedrichsruhe Prince Bismarck in reply to a remark that Herr Richert had wished to partake in the ovation to him, Prince Bismarck said that he had never given up the hope of regaining Herr Richert's friendship. He was of the opinion that things were pleasanter in the reichstag in 1847 than in the recent parliament. He understood Herr von Levetzow's reason for resigning and approved his action. Herr von Levetzow, he declared, had fought for years against adverse circumstances.

Bimetallic Row in the Reichstag.

Berlin, March 27.—During the discussion of the management of the Deutsche bank in the reichstag Count von Mirbach and Count von Kardoff attacked the hostility of the governor of administration, Dr. Koch, to bimetallicism. Dr. Koch refuted these attacks amid loud applause from the members of the left. A motion upon behalf of the conservatives to discuss Count von Kardoff's agrarian proposals to-day was defeated by a vote of 149 to 56.

Friedrichsruhe, March 27.—Emperor William at the head of a detachment of cavalry, infantry and artillery, with colors flying and bands playing, paid his respects yesterday to Prince Bismarck, presented him with a sword of honor in behalf of the army, and congratulated him upon nearing the eightieth anniversary of his birth. His majesty was accompanied by the Crown Prince Frederick William, Gen. Bronsart von Schellendorf, the minister of war, and the officers of his military household.

MORE INDICTMENTS.

Grand Jury at New Orleans Hot After the Levee Riots.

New Orleans, La., March 27.—The grand jury yesterday returned forty additional indictments for murder against the same persons who were indicted last week for participation in the levee riots. A special report on the riot was also presented. This severely criticizes the mayor and police for failing to arrest promptly those who took part in acts of lawlessness on the levee for weeks preceding the riots. The movement of Tuesday, says the report, was an organized one, deliberately planned and cruelly carried out. The report declares the greater number of the rioters convicted were members of the Screwmen's or Longshoremen's association, while some even were from the committee of twenty-one, the supreme body in the screwmen's organization.

SIX FEET FROM DISASTER.

Train Stopped at the Edge of a Burned Bridge in Missouri.

St. Louis, Mo., March 27.—Passengers who reached St. Louis yesterday morning by the Wabash train from Omaha tell a thrilling story of a narrow escape from disaster. The eastbound train which leaves Omaha in the afternoon and is due to arrive in St. Louis early the following morning had just passed Triplatt, an insignificant station near Brunswick, Mo., when the engineer, after rounding a sharp curve, saw a sheet of flame rising from between the tracks a few yards ahead of him. The train was brought to a sudden stop. A half dozen feet in front of the engine rose a tongue of flame, and beyond it yawned a seventy foot gap in the Yellow river trestle, which had just been destroyed by fire. The fire is thought to have been started by would-be train robbers.

Harriet Beecher Stowe Not Insane.

Hartford, Conn., March 27.—During the last two days the family of Harriet Beecher Stowe has been deluged with inquiries as to the condition of the noted novelist, owing to the publication of a story that she had become violently insane and was to be confined in an insane asylum. Yesterday Edward Beecher Hooker, her physician, issued a card in which he states that Mrs. Stowe is in better health than usual and that she devotes considerable of her time out of doors, visiting freely her friends and neighbors.

Protestant Minister Adds to Canadian Ill Feeling.

Montreal, Que., March 27.—The excitement in Quebec over the school question is none the less real because it is in a measure subdued for the time being. The tone of the French press intimates what will happen if "Oranges," as they term it, triumphs. Considerable additional ill feeling among the French Catholics has been created by a paper read yesterday before the Protestant Ministerial association by Rev. W. T. Graham. Mr. Graham made a bitter attack on the Jesuits and called on all loyal citizens to unite to secure their eviction from Canada. Mr. Graham closed his address with the declaration that the right of Manitoba to enact its own school laws must be preserved.

Stewart Strevil's Son Accused.

Fort Scott, Kan., March 27.—Noah Strevil, the only son and heir of Stewart Strevil, the old man who was found dead at his home near this city March 15 with his throat cut, was arrested yesterday, charged with the crime. The murderer left no clue, and as no motive for the deed could be discovered the officers had about given up hopes of ever solving the mystery. County Attorney Cory says he can prove without doubt the young man visited his father the evening of the murder and did not arrive home until after midnight.

Plague Breaks Out in China.

ILLINOIS LEGISLATURE.

House Still Obdurate Over the Military Deficiency Bill.

Springfield, Ill., March 27.—The senate was informed by message yesterday that the house refused to recede from its amendment reducing the amount of the appropriation in the military deficiency bill. The president was authorized on motion of Senator Higbee to appoint three senators as members of a conference committee to meet with a like committee from the house to agree, if possible, upon a measure. Senators Evans, Higbee and Green were appointed. Senator Morrison introduced a bill making it a misdemeanor for any person or company to feed to animals of the bovine or swine species the residuum from a distillery, brewery or factory left after the manufacture of spirits or beer, or any material in a fermented, sour or putrid state. The following were among the bills passed: Hunt's, to conform the school law to general statutes regarding the rate of interest on school funds. Howell's appropriating \$28,000 annually for the State Normal school at Normal. After some other minor business the senate adjourned.

In the house Representative Bryans' bill authorizing school boards, when people so vote to establish public kindergarten schools for children from 4 to 6 years of age, passed, as also did Bailey's anti-truck store bill. It compels payment of debts contracted for labor in bankable currency.

Mr. Berry thought the bill was clearly unconstitutional, but said that he would vote for its passage. The miners were entitled to all the protection the legislature could throw around them. Mr. Kaiser defended the bill. The bill was passed—yeas 118, nays 3. The three negative votes were Callahan, Barnes and Graham.

As members of the conference committee on the part of the house to consider the disagreement between the two houses on the military appropriation bill the speaker appointed Messrs. Needles, Cochran and Burroughs.

Mr. Perry presented a petition from residents of his district protesting against the passage of the Humphrey pool-selling bill.

The house adjourned to 10 o'clock this morning.

LI HUNG CHANG MUST DIE.

Physician Said to Have Reported That He Could Not Recover.

New York, March 27.—A special to the Press from Washington says: "In a private cablegram from Tokio received by a member of the Japanese legation here, is conveyed news which is of world wide interest. According to this dispatch, which comes from the highest official source in Japan, a German physician, who is a professor at the University of Tokio and an expert of high standing, was sent at the personal request of the mikado to examine Li Hung Chang's wound. After a thorough examination of the distinguished patriot the physician reported conditionally to the mikado that Li Hung Chang must die. The wound is in the face, and the bullet, which the surgeon has not yet succeeded in extracting, is apparently beyond reach. Moreover, Li is 70 years of age, and although a giant physically, his years are against him."

FAILS FOR MILLIONS.

Nashua, N. H., Savings Bank Closes with \$2,700,000 Deposits.

Nashua, N. H., March 27.—With \$2,700,000 in deposits and a record of forty-one years as the leading bank here the Nashua Savings bank closed yesterday afternoon. The feeling is intense for no other bank in the city, and but three in the state, had more depositors. It was essentially the poor man's bank and for two score years all believed in it.

Western investments are given as the cause for the bank's financial difficulties. The officers struggled against the panic of 1893, but matters grew worse, and the inevitable result followed. It is believed the assets are sufficient to pay the depositors in full, if time is allowed to convert them to the best advantage and losses do not occur.

**A BABE ROASTED;
OTHERS WILL DIE**

Fearful Accident At West Superior This Morning.

ONE CHILD DEAD AND TWO MORE CAN NOT LIVE.

Oil Stove Exploded While Mrs. John Nelson Was Heating Milk For Her Infant—Little One Was Cooked to Death and the House Destroyed—Two Children Blistered in Bed.

West Superior, March 27.—An oil stove exploded in the house of Mrs. Nelson early this morning, while Mrs. Nelson was heating milk for the baby. The child was burned to death, and two sons who were sleeping upstairs, were so badly burned that the eldest one will die, while there is but scant hope for the recovery of the other one.

The money that the couple had been saving for years, was also burned, and the house was totally destroyed. Mrs. Nelson was also severely burned, but she will recover.

TRAIN ROBBERS CAUGHT.

One of Them Is the Man That Aided in the Tansney Outrage.

Cripple Creek, Colo., March 27.—Five men are under arrest charged with the robbery of the train on the Florence & Cripple Creek railway Saturday night. They are Bob Taylor, Frank Wallace, Lou Vannick, W. S. Crumley and James Gibson. Vannick, Crumley and Gibson are employed at the Strong mine. W. S. Crumley is the man who drove the hack at Colorado Springs when Gen. Tansney was taken from the Alamo hotel to the outskirts of the city and tarred and feathered. Bloodhounds played an important part in tracking the men.

Shooting at Baltimore Election.

Baltimore, Md., March 27.—Disgraceful rioting occurred yesterday at the special election for city councilors in the Fifteenth and Sixteenth wards. Louis Gervet, aged 52, was shot and probably fatally wounded. Two or three toughs were slightly wounded and the heads of a dozen or more cracked with paving stones and slungshots. The police patrol wagons were kept busy all the afternoon carrying thugs to the police stations and injured men to the hospital. The democrats claim to have elected their candidate by twenty-seven majority. The republicans say their candidate was counted out and charge gross frauds. There will be an investigation.

Judgment in Favor of Americans.

Washington, March 27.—After months of deliberation the Venezuelan claims commission yesterday concluded its labors and announced its decision, being a judgment in favor of citizens of the United States for \$143,500, about one-third of the amount of the claims. Senor Andrade, the Venezuelan representative on the commission, has given notice that he will file a dissenting opinion in the case.

Fierce Battle in Colombia.

Panama, Colombia, March 27.—The government has issued a bulletin claiming a victory over the rebels at Boyaca. It was a costly one, however, for out of the 3,000 troops under Gen. Reyes, which formed the expedition, 1,500 dropped off through fatigue or disease during the march, and of the remaining 1,500 which gave battle to the rebels 700 were killed before victory rested with the government forces.

Collis Huntington Again Indicted.

San Francisco, Cal., March 27.—The United States grand jury filed a second indictment against Collis P. Huntington, president of the Southern Pacific Railroad company, for violating the interstate commerce law by issuing a pass outside the state. It was hinted a technicality might nullify the first indictment, so an ironclad indictment was filed yesterday.

More Bogus Bonds Come to Light.

Minneapolis, Minn., March 27.—Another notable sensation is revealed by correspondence of an attorney named Rufus T. Peck of Cortland, N. Y., who is seeking information as to some school bonds of Capitola township. The bonds are nine in number and of \$500 each. It transpires that there is no such township. Excitement is general in the locality and other ugly rumors are rife.

Murder and Arson.

Springfield, Ohio, March 27.—The dwellings of Sanford Wilson, an old soldier living alone, and W. H. Walker burned at Cedarville yesterday.

GOOD MEN PLACED ON WARD TICKETS

SKETCHES OF REPUBLICAN CANDIDATES.

All Are Representative Business Men and Their Election Means a Business Administration In The Strictest Sense of the Word—Vote For Republicans and Good Government.

It was a strong set of ward tickets that the republicans nominated at the primaries Monday night. Seldom are as good a lot of men named for ward positions. A glance at the list shows very plainly that Janesville republicans are arranged on side of good government, and that their candidates were selected with that end in view. Henry C. Stearns, the candidate for alderman in the First ward is as good a man as was ever honored by the republican party. He is a business man of wide experience, and his judgment on all questions is sound. Mr. Stearns has resided in the city of Janesville for many years, and is a member of the firm of Stearns & Baker, the druggists. No better man than Mr. Stearns could be selected, and all republicans should rally to his support.

James Shearer, the candidate for school commissioner, is a man eminently qualified to represent the people. He has resided in Janesville for years, and is known as a reliable man, and his influence will be felt in the body of which he will be elected a member. No man in Janesville is better or more favorably known than James Shearer, the contractor. A vote for him is a vote for good government.

C. E. Bowles, the candidate for supervisor, is a most excellent choice. He is a good business man and in every way competent to represent his ward in that body. The nomination is a strong one and Mr. Bowles' election is assured.

H. B. Kenniston, who was nominated for constable, has had large experience in that line, and of his election there is absolutely no question whatever.

The Second Ward List.

When the Second ward placed S. C. Burnham in nomination for the office of alderman they made the best choice possible. Mr. Burnham is widely known, and no statement endorsing him can be made too strong, while nothing ill of him can be truthfully told. With a council composed of such men as Samuel Clark Burnham, Janesville is assured of the best of government and the careful attention to city business upon which so much depends.

W. T. Vankirk, who was named for supervisor is known to every voter in the city of Janesville. A tireless party worker and a man possessed of sound business judgment, the confidence of the people can be safely placed in his keeping. He has served on the county board before and is nominated to succeed himself. He is a good man for the position and wise voters will plan to keep him there.

In choosing A. K. Cutts, the nominee for constable, the caucus was unanimous. Mr. Cutts has had years of experience and is known as one of the best men in that position that Janesville ever produced. Mr. Cutts' election by a very large majority is a foregone conclusion and that is as it should be.

The Third Ward's Men.

E. Ray Inman, who will represent the Third ward in the council, is one of Janesville's progressive, stirring young business men. While he possesses a full and complete knowledge of the law, he is at present engaged in the manufacture of sash, doors, blinds, etc., and is a part owner of the Inman & Bolland planing mill. Mr. Inman is a young man of exceptional ability, and is endowed with the intelligence, foresightedness and independence that an alderman should possess. A nomination in his ward is equivalent to an election, and no better man than E. Ray Inman could have been named. A vote for him is a vote for a business man's administration, and that is what all the citizens want.

Fenner Kimball is one of the oldest and most influential members of the county board. He has served in that body for years, and his renomination is a compliment for both the ward and himself. There is no doubt of his election, and no better man ever represented a constituency in that body. Mr. Kimball's record speaks for itself, and much louder than is possible by word of mouth.

John Cunningham, who will succeed himself as a member of the school board, has been a member of the board for some time past, and has shown himself to be qualified in every way. His election

as clerk of the board during his first term shows his standing with his colleagues, and he is a man in whom the highest confidence can be placed. His election is assured, a fact of which every voter can feel proud.

For constable, Wallace Cochrane was the unanimous choice. Mr. Cochrane is one of the best officers in the city. He possesses the foresight and judgment that is indispensable to officers, and if his majority is in keeping with his qualifications for the place, it will be very large indeed. In the Fourth Ward.

Two good men were nominated for aldermen in the Fourth ward. Dr. Thorwaldsen Judd, the well known dentist, who was nominated for the two-years' term, is a man of whom naught but good can be said. He is a man of strict honesty, thoroughly reliable and possessed of the ripe judgment that comes with years of contact with the world. No stronger candidate or better qualified man could have been chosen and his election means that the business of the people will be administered in a way that will make the Fourth ward people proud of their representation.

J. B. Green, the well known planing mill proprietor, who was chosen as a candidate to fill the short term vacancy caused by the resignation of Alderman W. M. Cunningham, is a man of wide acquaintance in Janesville and one in whom all people have implicit confidence. He is an old soldier and a man of sound judgment. No better man could have been named and his support should be of the heartiest character.

David Jeffris who was named for supervisor is one of Janesville's best known and most respected citizens. He has made the Bower City home for many years and no man stands higher in the community than he. That he would make a most excellent supervisor is a fact that cannot be questioned and every republican vote is due him. A ballot for Mr. Jeffris is a ballot for a good man and a good administration.

R. O. Ycemans, the nominee for constable would make a most excellent officer. He is well known and very popular and entitled to the full republican strength. His manly independence and business worth account for his popularity and make him a strong candidate and one against whom no argument or charge can be advanced.

The Fifth Ward Ticket.

The Fifth ward is good fighting ground this year and Harry Handy, the nominee for alderman is entitled to the full and hearty support of all republicans. He is a man in whom residents of the ward place entire confidence and will make a gallant run. He is the foreman of F. S. Baines tobacco warehouse and is widely and favorably known. If every republican works and votes for republican success in the Fifth ward Handy will be the next alderman. Carrying the Fifth ward would be the crowning stone of glory for the republican party in Janesville and is an object worth working night and day to accomplish. With Harry Handy the object can be attained so all hands should fall in with a hearty good will.

The other Fifth ward nominations are strong ones and men for whom it is an honor to vote. John S. Sweet, the nominee for school commissioner is a young man who is well known and popular, while George Brink, the candidate for supervisor is widely acquainted. He ran for alderman last year and made a most excellent showing although he was defeated. Mr. Brink is a strong candidate, a man of judgment and experience and he should get the full support of this ward. Adolph Harwig, the nominee for constable is a thoroughly competent man for the office and will get every republican vote in the ward. He deserves all the praise that can be given him.

Now these are the ward tickets. Did you ever see better ones?

Low Prices Hurt.

There is a class of people who do not fancy low prices, and that is the other high priced buggy dealers. By a gigantic effort we have been able to get hold of the Henney buggy this season, and also to get it at a price that puts it right at the inferior grades of buggies in the market. Buggy dealers dislike to come in contact with the Henney, as it invariably gets away with them. It's a high grade buggy, at a low grade price.

DID MISS FLINT DIE UNDER THE STRAIN

DEMISE OF THE HYPNOTISTS DAUGHTER IS REPORTED.

She Is Said to Have Expired As the Result of the Giving of the Rock Breaking Scene At a Performance In An Ohio Town—Story Not Credited.

The report is current about town that Miss Marina Flint, daughter of Dr. Flint, the hypnotist, had been killed in Ohio while the stone-breaking act was being given. In performing the stone-breaking act, Dr. Flint puts his daughter, who is a frail little body, into a state of catalepsy, and then after placing her feet on the back of one chair and her head on another, places a common building stone weighing about 200 pounds, on her chest. Then some one in the audience is called upon to break the stone, which is no easy task. The girl's body is rigid and the shock produced by the striking of the hammer on the stone has no apparent effect on the body. It takes some time for the doctor to restore the girl to her former condition, and when he finally succeeds, her face has a deathly pallor and she is apparently so weak that it is with difficulty that her limbs sustain her. The report is hardly credited about town, as nothing has been printed in the papers concerning the matter.

A Good Thing and Nothing to Pay.

Just see what Dr. Greene offers to do for all weak and suffering people. He is the most successful living specialist in curing nervous and chronic diseases. His unparalleled offer to consult with anyone, free of charge, by letter correspondence, is doing wonderful good. If you have any complaint which you do not thoroughly understand, and which you would like cured, write the doctor a letter stating just how you feel and what symptoms trouble you. He will answer it, giving a complete description of your case, explaining the meaning of every symptom, and telling how you can surely get well and strong. He gives most careful attention to each letter, and explains your case so thoroughly that you understand exactly what ails you. All this costs you nothing, you have no doctor's fee to pay, and you don't have to leave your home. The doctor makes a specialty of treating patients through letter correspondence, and they nearly always get well. He is the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. Write to him at his office, 25 West 14th street, New York City, and you will undoubtedly be made strong and well.

A Breezy Time Tonight.

This evening at the Myers Grand, Fitz and Webster will play a return engagement of "A Breezy Time." The author of a "Breezy Time" has given an amusing, well told story that Fitz and Webster and their clever company of comedy players have succeeded in elaborating in an enjoyable entertainment. Meritorious from the fact that it not only has all the elements of music and fun, but its story is coherent and full of well sustained interest. The three acts of a "Breezy Time" have been happily impregnated with music, songs, dances and clever specialty features, all of which are introduced in an easy and perfectly legitimate manner, and the presentation gives a bright, crisp, musical comedy with the refreshing novelty of a plot—something decidedly new in the farce comedy field, and a feature that has proven one of the strongest factors of the phenomenal success of the present season.

MONTE CARLO'S PATRONS.

The Ladies Are the Most Profitable Customers at Gaming.

The English, the Americans and the French are probably the most remunerative patrons of Monte Carlo, and it is to Switzerland and not to the frontier of Italy that the vast majority of pleasure-seekers repair in summer, says the London Telegraph. Again, at the very period when the Casino people wish to allure English visitors to the Riviera the London season is at its height and the parliamentary session has as yet shown no sign of waning. The Atlantic steamships are bringing to Europe every week shoals of American tourists, but our transatlantic visitors usually pass the summer in London or Paris, or at English or French watering places, and await cooler weather before they journey down south. Another suggestion made to the perplexed administration is that a club for the use of gentlemen visitors should be established in connection with the Casino, it being proposed to utilize for the purpose the premises of the Hotel Monte Carlo, but it is difficult to see that the financial prosperity of the Casino company would

be increased by supplementing the existing tripot with a club. Visitors who really belong to cosmopolitan clubland can easily become members of the Cercle de la Mediterranee at Nice, and after all, it is not the serious players, the scientific operators at rouge et noir, who despise the merry but frivolous game of roulette, that are the most lucrative customers at the Casino. At trente-et-quarante it is really possible to win very large sums of money, not, indeed, to break the bank—since Napoleon's dictum of the big battalions eventually winning still holds and always will hold good—but enough to cause the administration to close a particular table for a few hours. At roulette, however, for the winner of any considerable amount there are possibly 100 who, sooner or later, will be utterly and hopelessly decaved, or "cleared out." Moreover, in modern times it has been the lady punters who, in the aggregate, bring the greatest amount of grist to the mill of the Casino company. It is not that the ladies often go to the maximum of stakes to be realized—they are in general too timorous for that—but they play recklessly and they continue to play until they have lost their last 5-franc piece on the tapis vert, and a club from which ladies were excluded would be bereft of the contributions of the sex who are, as gamblers, not less adventurous and perhaps a little more incorrigible than men.

BOGUS BEER AND SMOKE.

A Worldly Criticism of Two Great Reformatory Agencies of the Age.

It is said that the non-alcoholic imitation of beer which Bishop Fallows is selling in his Chicago church saloon looks like beer, tastes like beer, foams like beer, and has so many of the other qualities of beer that it is calculated to deceive Hans Breitmann himself. This being the case, is it moral? When Mulberry Sellers strove to produce the sensation of warmth and cheerfulness by putting a lighted candle in the stove was he truthful and heroic or mendacious and cowardly? The question is not a light one. It goes deep. In addition to Bishop Fallows' imitation beer we have thrust upon us an alleged agency of reform a patent pipe which can be loaded with tobacco and smoked in the ordinary way, except that the smoker, who seems to be drawing deep draughts of consolation and philosophy from it, is not getting a single whiff of the reality. He is merely deceiving himself with a delusive dream of comfort. Is this reform? If it is there is reason for believing that hades will be the most thoroughly reformed place in the universe, for there, according to the version of a sacred poet whose scriptures have the authority of venerable antiquity, men as shadows will indulge the shadows of their unmastered habits, drinking church reform beer and smoking patent reform pipes forever and ever without the possibility either of satisfaction or satiety. And after having tried this for only a short time one of the greatest dignitaries of the place declared that he would rather be a tramp or a Chicago broker on earth than the most respected and honored potentate in all sheol. The mocking reality of such pinchbeck imitations of alluring vice as the patent pipe has something infernal about it.

Home's was not mistaken on that point. There can be no virtue in pretending to be delightfully vicious. The way to reform is to reform. There is no other way.

Not What He Wanted.

"Too soft a snap!" muttered the train robber. Yet he seemed not altogether pleased. "Much too soft a snap," he repeated, frowning. Then he selected another revolver with a stronger spring to it, and started for Dead Man's Gulch with more confidence.

BEGINNING EARLY is half the battle. Don't wait for your cough to run into consumption. There's always danger of it. The germs or seeds of this disease are all around you. All that they want is an inactive liver and the scrofulous condition that follows it, to develop them. You need Dr. Pierce's Golden Medical Discovery, now, to thoroughly purify your blood, build up sound, firm, honest flesh, and make every weak spot strong. It's a certain remedy for the earlier stages of Consumption.

Campbell, Ohio.
DR. R. V. PIERCE: Dear Sir—Two of our best doctors pronounced my case consumption. I spent nearly \$300, and was no better. I concluded to try the "Golden Medical Discovery." I bought eight bottles, and I can now say with truth that I feel just as well today as I did at twenty-five, and can do just as good a day's work on the farm, although I had not done any work for several years. I give you all the thanks.

Truly, your friend,

William Dulaney

REPUBLICANISM AND A. P. AISM.

The Recorder and the democratic party would have it appear that the republican candidates on the city ticket are A. P. A's. and that Mr. Child's nomination, is a victory for that secret society. Any thing but the issue is what democracy is looking for this year; first it was the water works and now it is the A. P. A. The Gazette is very frank to admit that if the latter were the issue, that the party would deserve defeat the same as any other party that would permit its policy to be dictated by a set of fanatics, who are neither republicans nor democrats, but simply hobbyists. The Gazette has no sympathy with A. P. Aism, or any other issue that is un-American. If the time ever comes in city politics when the issue is fairly defined between fanatical ambition and party warfare, the duty of every republican will be clear, for independent government in this American country where freedom of thought and religious belief is the foundation stone, is of more vital importance than the success of any political party.

But the Gazette is very glad to state that the issue is not involved in the present campaign. Mr. Child has said repeatedly and emphatically that he is not a member of the A. P. A. and not in sympathy with them. He is a man of integrity and unimpeachable character, and his statement on any question of veracity, would be believed.

Mr. Childs is too good a republican to drift away with any side issue, and as a republican, he is entitled to the united support of the party. His experience in the council, where he has served on important committees, will qualify him to acceptably fill the chair of mayor, and his administration will be clean and wholesome.

Regarding the mayor and the water company, of which so much has been said, The Gazette would suggest that the mayor is simply the presiding officer of the council; he is neither the attorney for or against any corporation.

This interests of the city, or of the water company are just as safe in the hands of Mr. Child as any other man in the mayor's chair. His duty is to preside and administer. He is a conservative, candid man and can be trusted in places of responsibility.

Arthur E. Badger, the candidate for city clerk is entitled to the party support and he will get it. He is a bright, intelligent young man and he will make a capable official. He was nominated for two seasons; that he is a good republican and that a recent sad misfortune had cost him his arm thus unfitting him for many kinds of labor. Mr. Badger is qualified to fill the office for which he is named, and is entitled to the full party strength.

J. H. Watson, the candidate for street commissioner, is qualified in every way for the place. He has had large experience in that line of work and is thoroughly familiar with it. He was engaged with his father, John Watson, the well known engineering contractor for a long time and the knowledge gained at that time will be of great use to him as Janesville's street commissioner. A vote for Mr. Watson is a vote for good streets and that is what any citizen wants.

T. W. Goldin, the candidate for school commissioner at large is a member of the board at the present time and was honored with the presidency of that body, a position which he now holds. Mr. Goldin is known to every voter as a good republican, an unceasing party worker and a most excellent school commissioner. His election is assured.

D. T. Kenyon, the nominee for sealer of weights and measures, is an old resident of Janesville, and will

fill the office for which he was chosen in a capable manner. He is entitled to the party's support, and he will get it.

All these candidates were nominated by a convention composed of delegates chosen by republican caucuses duly called by a republican city committee, and as such they are entitled to the republican support.

A Storm at Sea

Increases the discomfort of the voyager. But even when the weather is not tempestuous he is liable to sea sickness. They who traverse the "gigantic wetness" should be provided with Hostetter's Stomach Bitters, which quiet disordered stomachs with gratifying speed and certainty. To the harmful influence of a tropic, malarious or too rigorous or damp climate, as well as to the baneful effects of unwholesome diet and bad water, it is a reliable antidote. Commercial travelers by sea or land, mariners, miners, western pioneers, and all who have to encounter vicissitudes of climate and temperature, concur in pronouncing it the best safeguard. It prevents rheumatism and pulmonary attacks in consequence of damp and cold, and it is an efficient defense against all forms of malaria. It can be depended upon in dyspepsia, liver and kidney trouble.

Here the train broke in two and when the first section stopped at the Junction the rear section ran into it with a crash. Cars were piled up in a miscellaneous manner and the wreck blocked the line for several hours. Luckily no one was injured and the Janesville wrecking train in charge of J. C. Fox was sent post haste to the scene to straighten things out.

LOCKED IN FLAMES CON. MAGUIRE DIED

FORMER JANESVILLE MAN ROASTED LIKE A CAGED RAT.

Fiends Barred the Door of the Blacksmith Shop in Which He Slept At Council Bluffs and Then Applied the Torch—Terrible Fight for Life Was Unavailing.

Cornelius Maguire, the former Janesville liveryman met a most horrible death at Council Bluffs, Monday. He was literally roasted in his burning shop after fiends had locked the door and applied the torch. When he finally escaped it was only to die in a few hours. Maguire will be well remembered by Janesville people. For some years he ran a livery stable across the road from the Park hotel, but was burned out. Western prospects led him to leave Janesville and he went west, and a few years ago, in company with others, put up a building at Plattsmouth to be used as a distillery, but the building was burned before it was ready for occupancy. This misfortune disheartened him, as he lost all he had, and from there he went west, returning to Council Bluffs and engaging in the blacksmithing business, which trade he had always followed. The building was formerly a training stable, but was later fitted up for blacksmithing by Smith Coffee, who owned it at the time it was burned. Maguire fitted up a room in the northwest corner of the building, which he occupied as a sleeping room. In this room there was but one window, and it was boarded up half way both on the inside and outside.

Fired While He Slept.

Maguire had been asleep for some hours when he was awakened by the roaring and crackling of the flames, which were rapidly enveloping the entire building, a wooden structure and dry. His first effort to make his escape was at the front door, and being unable to get it open he rushed through the fire to the rear, and failed in his attempt to make his escape in that direction. The building at this point, where the fire had evidently started, was a mass of flames, and the heat and smoke were stifling. The night clothes of Maguire were now on fire, and his body was being burned in a horrible manner. The torture was becoming unbearable, and crazed with pain he made a last effort to free himself from the burning building, and again rushed through the flames to the front part of the building, where, gathering all the remaining strength he had, he hurled his body against the door and burst it open.

Desperate Run For Help.

The site of the blacksmith shop is a block from the nearest business house or dwelling, and up to this time the people nearest to the burning building were not aware that a fire was in their vicinity. Maguire's cries for assistance had not aroused any one. In a pitiful condition, with his night clothes burning and the flesh peeling from his legs, arms and hands, he made his way a block distant to a building, 3802 Sherman avenue, where with his cries he aroused L. T. Foreman, whom he begged to extinguish the flames that were burning his back and which he was unable to reach with his mangled hands. Mr. Foreman rendered all the assistance that was in his power, and in obedience to Mr. Maguire's wishes, he led him a block further north to where a friend of Maguire's lived. His friend, Ted Beecher, assisted him up two flights of stairs over Cumings' saloon, 3825 Sherman avenue, where he was put to bed. The police ambulance was called and a physician having arrived, he was ordered taken to the Emanuel hospital, where remaining conscious to the last, he died a few hours afterward.

Work of An Enemy.

In conversation with his friends he stated that some one had tried to burn him up, and that the doors had been barred on the outside, making his escape almost impossible.

Friends of Maguire stated that they knew of no one who could be construed to be an enemy of his, and that all of his acquaintances seemed to think a great deal of him. The only difficulty they ever knew Maguire to have was a few weeks ago when a colored man went to the shop to have a horse shod and paid for the work. In a few days the same man returned and had another horse shod and asked for credit, but this was refused and the horse was held until the money was paid over. A few words were had at that time, but no particularly bad feeling was expressed on either side.

Although the building was entirely burned, which destroyed the chances of learning whether the doors had been barred from the outside, the friends are unanimous in saying that they do not think such was the case, and explain the fact that Maguire was unable to escape at first from either of the doors as being caused from the excitement of the moment.

A PLEA FOR A LIBERAL CHURCH

Rev. C. E. Varney Opens the Meetings At All Souls Church.

The need of a liberal church was outlined by Rev. C. E. Varney of Monroe, in opening the revival meetings at the All Souls church last night. Much complaint is made that young men of today are unchurched through the influence of schools and colleges he said. This is true. As the young man progresses with his studies he finds that he cannot cling to his old childhood belief and the old church, and sometimes he even goes so far as to become a practical atheist, that is, he lives as if there were no God. But there are few. The liberal church receives the greatest number of this thinking class. The orthodox church, which complains because the business men do not attend prayer meeting should realize that it is the fault of the meeting and not of the men; that when the meeting is made a necessity to them, they will not afford to miss it.

Brief remarks by Rev. C. F. Elliot and Rev. Gould followed and tonight Rev. W. S. Simonds, of Madison, will speak on "The Only Consistent Faith." There will also be several other brief addresses.

WEDDINGS FOLLOW RESIGNATIONS

They Say Three School Teachers Will Don the Matrimonial Yoke.

It is quietly whispered that three of the lady school teachers will resign their positions as teachers at the present term of school, which will be Friday afternoon of this week. And it is also quietly whispered that three weddings will take place soon after Easter Sunday.

A REPUBLICAN MEETING CALLED

THEY STOOD AT CUPID'S SHRINE

Mansur-Lane.

The home of Mrs. E. W. C. Butler, 209 North Bluff street, was the scene of a happy social event at 11 o'clock this morning. The occasion was the marriage of Mrs. Mary M. Lane and William Mansur, both of this city. The ceremony was performed by Rev. S. P. Wilder of the Congregational church, and only the members of the families of the interested parties were present, owing to the recent death of a sister of the bride. Mr. and Mrs. Mansur left on the noon train for a brief visit with friends in Minneapolis and in Clinton, Iowa, intending to return on Monday. They will reside at the Hoskins' homestead, North Bluff street.

Dabson-Prine.

The marriage of Miss Augusta Price and Henry Dabson, to h of this city, occurred last evening. Mr. Dabson has been in the employ of George Charlton of late, and both he and his bride have many friends who wish them much joy. They left this morning on their wedding trip.

Stolen Records Are Found.

Ardmore, I. T., March 27.—A startling discovery has been brought to light near Tishomingo by the finding in a hollow log of the journal records of the last session of the legislature which contained the impeachment charges of Ben Kemp, the then district judge. The records had been stolen from the capitol, but the fact was known only to a very few and efforts to keep the matter concealed are still employed. The books are now in possession of the national jailer and some startling developments are expected.

Mystery Surrounds the Mint Robbery.

Carson, Nev., March 27.—It is quite evident something is in the air here with regard to the mint robbery. The present officials and employees are quietly smiling and their bondsmen are indulging in handshaking among themselves, although when approached they assume a contented air and say nothing. Inspector Mason says some bad business has been going on. The general impression here is that the blame has been shifted from the shoulders of the present administration.

FITZ WINS THE CASE IN JUSTICE COURT

THE ATTACHMENTS PROCEEDINGS ARE DISMISSED.

Plaintiff Will Pay the Costs and the Attorneys Fees—Case Grew Out of the Cancellation of a Date for La Crosse By the "Breezy Time Company" Some Time Ago.

The case of the La Crosse Theatre Company against E. B. Fitz of the Breezy Time Company, who appear at the Grand tonight, came up before Justice Prichard at 2 o'clock this afternoon, and on motion of the plaintiff it was dismissed, the plaintiff paying the costs. Judgment was then ordered against the plaintiff for attorney fees.

This was a case of attachment, the La Crosse Theatre Company claiming that Fitz was indebted to them on account of cancelling an engagement to play at that place. Fitz claimed that illness was the cause of cancelling the date, but the La Crosse Company attached the receipts of an entertainment given by the defendant in the Myers opera house some ten days ago.

The case of the state against Charles Jones of Porter, is set in the municipal court for 10 o'clock tomorrow morning.

BABY CONTEST OPEN
BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette, containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

A PECULIAR RUNAWAY.

Tried to Swim the Monongahela Hitched to a Sleigh.

It was the experience of only a horse, but it was such as to raise the hair of all who witnessed it, says the McKeesport Times. The animal belonged to Jacob Keil of Market street and, after running off and swimming half way across the river, it was returned to its owner uninjured. Yesterday afternoon Mr. Keil left his home in this city in a sleigh and went to the residence of John Sinn in Lincoln township. He tied his horse in a large coal shed near the house. Shortly afterward Mr. Sinn's hired man drove up with a load of coal, and, not knowing of the presence of the animal on the inside, commenced pitching the coal through a window in the shed. Mr. Keil's horse frightened, broke loose and started for home. Up hill and down hill it dashed at a reckless pace, frightening numerous pedestrians along the way. The horse finally reached the Monongahela river and, nothing daunted, started in to swim to the other side, dragging the sleigh with it. The river was full of ice, but the animal swam out into the current and had succeeded in getting about half way across, when it became chilled by the icy water and turned back. It reached the shore in safety and was caught and returned to its owner. A peculiar feature of the runaway, was that the sleigh and harness were not damaged to any great extent and the horse escaped injury, although exhausted by its wild and furious chase.

BEAUTY IS POWER.

Perfection of Form, Feature, and Mind
Render Women All-powerful.

[SPECIAL TO OUR LADY READERS]

Yet blended with those perfections must be perfect health. Women are today stronger in their character, better in their nature, truer in their love, warmer in their affections, than they ever were.

But most women do not know themselves; and often when their influence is doing the most good, break down. They drift gradually and unconsciously into that tempestuous sea of woman's diseases.

Then they should remember that Lydia E. Pinkham's Vegetable Compound restores natural cheerfulness, destroys despondency, cures leucorrhea, — the great forerunner of serious womb trouble, — relieves backache, strengthens the muscles of the womb, and restores it to its normal condition, regulates menstruations, removes inflammation, ulceration, and tumors of the womb, etc.

It is a remedy of a woman for women. Millions of women owe the health they enjoy, and the influence they exert, to Mrs. Pinkham; and the success of her Vegetable Compound has never been equalled in the field of medicine for the relief and cure of all kinds of female complaints. So say the druggists.

Here is another one of thousands who speak that others may know the truth:—

"For five years I suffered with falling of the womb, and all the dreadful aches and pains that accompany the disease. I tried several doctors and different medicines, until I lost all faith in everything. I had not tried your Compound. I watched your advertisements from day to day, and each day became more hopeful.

At last I resolved to try it. I have taken seven bottles, and I have gained forty pounds. My pains have all left me, and I am a well woman. I do all my own work, and can walk two miles without feeling tired. Your Compound has been worth its weight in gold to me. I cannot praise it enough." MATILDA EHRMAN, Columbia, Lancaster Co., Pa.

Residence Had Been Vacant and the Origin of the Blaze Is Not Known.

PORTER, March 26.—A house belonging to P. Cullen of Center, was quite mysteriously burned one night recently. No one had occupied it for a few months. Willie Hugget had his eye injured quite badly while chopping wood. He is having it attended to by Dr. Palmer of Janesville, who thinks he may possibly lose his sight. BEFORE I could get relief from a most horrible blood disease, I had spent hundreds of dollars trying various remedies and physicians. My finger nails came off, and my hair came out, leaving me perfectly bald. I then went to

HOT SPRINGS

but very soon became disgusted, and decided to try S.S.S. The effect was truly wonderful. I commenced to recover after taking the first bottle, and by the time I had taken twelve bottles, I was entirely cured—cured by S.S.S. when the world-renowned Hot Springs had failed.

ELECTION NOTICE.

OFFICE OF COUNTY CLERK,
JANESVILLE, WIS., March 25, 1895.

To the Electors of Rock County:

Notice is hereby given that a judicial election is to be held in the several towns, wards and election precincts in the county of Rock, on the second day of April, A. D. 1895, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to this office, are given opposite the name of the office as designated below:

INFORMATION TO VOTERS:

The following instructions are given for the information and guidance of voters: A voter upon entering the polling place, and giving his name and residence, will receive a ballot from the ballot clerk, which must have endorsed thereon the names or initials of both ballot clerks, and no other can be used. Upon receiving his ballot, voter must retire, alone, to a booth or compartment, and prepare the same for voting. A ballot clerk may inform a voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for. The voter, to designate the candidates he wishes to vote for, must make a cross (X) in the square at the right of the name of each of such candidates. * * * * * If he wishes to vote for a person for either of the offices designated, whose name is not on the ballot, he must write the name of such person in the blank space under the printed names of the candidates for the office, and make a cross (X) in the square to the right of it. The ballot should not be marked in any other manner. If the ballot be spoiled it must be returned to the ballot clerk, who may issue another in its stead, but not more than three in all to any one voter. Five minutes time is allowed in booth to mark ballot. Unofficial ballots or memorandum, to assist the voter in making his ballot, can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it is marked by the voter. After it is marked it should be folded so that the inside cannot be seen, but so the printed endorsements and signatures of the ballot clerks on the outside may be seen. The voter should pass out of the booth, give his name to the inspector in charge of the ballot box, and pass out of the voting place. A voter, who declares to the presiding officer, that he is unable to read, or by reason of physical disability he is unable to mark his ballot, can have the assistance of one or two election officers in marking same, to be chosen by the voter. The presiding officer may administer an oath, in his discretion, as to such person's disability. The names of the candidates for the different offices and the principles represented in the nomination of each candidate are as below set forth.
